EDUCATION

- MERN Stack Web Development (Evangadi, Udemy)
- Cyber Security (Udemy, Cisco)
- CCNA (Cisco Acadamy)

SKILLS

JavaScript   TypeScript   CSS   HTML

React.js   Redux   MaterialUI   JQuey

Boootstrap   React Query   Formik

Node.js   MongoDB   MySQL   Next.js

ExpressJs   WebSockets   Stripe

Git   GitHub   Linux   Docker

Best Security Practice

Good Communicator   Teamwork   Adaptability

Time management   Leadership   Empathy
Problem-solving   Creativity

CAREER OBJECTIVE

Web Developer with a proven ability to adapt in both self-starting and collaborative environments while staying focused on achieving high-quality results under strict deadlines. I aim to develop innovative solutions that enhance user experience and drive business growth, as the same time to grow as a Fullstack developer, expand my skillset, and contribute to the development of cutting-edge projects that make a significant impact in the industry. With a strong foundation in both front-end and back-end technologies, I am dedicated to delivering high-quality, clean, and maintainable code.

WORK EXPERIENCE

Full Stack Engineer

Multi-Render (https://multirender.com)

📅 February 2021 - Present   📍 Remote (part time)

- understanding the requirements of the client and the pre-development documentations.
- responsive web development for landing SPA (single page applications).
- model design for the databases of web applications.
- REST API development for a Clinic management system using NodeJS and MongoDB
- advanced query system for products in the E-commerce store applications.
- Containerizing the Entire App or Client or Server side using Docker compose and running on docker container.
- Testing End Points of API's using Postman features.
- UI development using ReactJs, Redux for state management and UI libraries like Material UI, AntDesign and ChakraUI.
- Hosting completed apps on web servers and maintain them.
